DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/1/10 has been entered.

REASONS FOR ALLOWANCE

Claims 1-10, 12-32, 34-44, 46-62, 64-65 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest that decision tree processing module connected to the data store that automatically determines a subset of dimension variables for splitting the input data, wherein the decision tree processing module generates a model that uses a competing initial splits approach to identify the subset of dimension variables that best predicts the outcome of one or more transactions represented by one or more values corresponding to the pre-selected target variable and wherein the model specifies one or more splitting rules used to split the input data, together with all limitations recited in claims 1, 34, 64-65.

Thus prior art of record neither renders obvious nor anticipated the combination of the claimed invention in light of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
